

This project is written for two gauges: Fingering weight and DK weight yarn. The project calls for two sizes of needles. The gauges usually work two sizes off, or .5mm different. The two sets of needles are needed to make the soles of the feet double thick to mimic slippers. It is a toe-up pattern.

heel

This pattern is for a Short Row Heel

Needle 3 contains the stitches for the heel.

Starting with needle 3 of an odd row, K1 S1K1 to the last two stitches. Bring yarn to front, slip 1 stitch to right needle, wrap yarn to back and slip stitch back to left needle. Turn to Wrong Side.

Purl across needle, making sure to not purl first two stitches from last row. Purl to last two stitches, bring yarn to back, slip stitch, wrap yarn to front and slip stitch back to left needle.

Next round, make sure to keep slipping and knitting stitches to pattern. S1K1 to last three stitches (1 stitch before last row's slipped stitch) and slip and wrap stitch. Each time you knit or purl a row, work 1 less stitch. Continue decreasing until 12 stitches remain (A) or 8 stitches remain (B).

### heel increase

Start with Knit row, continuing in S1K1 pattern to first slipped stitch. Knit slipped stitch, slip next stitch, wrap yarn, and slip stitch back.

On Purl row, purl to first slipped stitch. Purl slipped stitch, slip next stitch, wrap yarn, and slip stitch back.

Continue to increase with Knit and Purl rows until all original heel stitches are worked.

### leg and cuff

Starting with needle 1, work in pattern through all three needles with smaller needle. Pattern will repeat 9 times (A) or 6 times (B).

Continue to work all needles in pattern until the leg measures 7" from bottom of heel (or desired length).

Work K2, P2 rib for 1.5"
